MEMORIAL ROAD RACE

WILBUR M'INTOSH, A FIVE-MINUTE HANDICAP MAN, CAME IN FIRST.

Otis R. Lowe Won the Time Prize. Making the 135-8 Miles in Lean than Thirty-Eight Minutes.

Wilbur McIntosh was the winner of th great road race yesterday morning. He had five minutes' start and finished a few feet ahead of W. Kompe, a seven-minute man, in 40:24. The course was about thirteen and fiveeighths miles in length.

At 8 o'clock yesterday morning the spectators had begun to arrive on the scene of the race, and the riders were in their dressing tents donning their racing suits, which might well pass for extremely abbreviated said to be carried about in walnut shells, The starting point, at the corner of Meridian and Fourteenth streets, was packed with a larger crowd than ever assembled there before. From the starting point to Fall creekthe people swarmed all over the sidewalks and lawns and seemed to enjoy standing in the hot sun, for at no time was there shown of the policemen and those in charge of the race to keep the street clear for the riders. It was a most orderly crowd.

The line of spectators did not end at Fall Ben-Hur bicycle; W. Kompe, the second creek. Along Meridian street to Thirteenth finisher, gets a \$60 Patee wheel. The street there was a full line of people on both sides of the street, and at many places along the course groups of people could be seen who had gone out in advance to see the boys pass along the road. At Broad Ripple a large crowd had assembled.

For a road race the start was made in fine shape. The street is only thirty feet wide, which does not give much space to start twenty-seven men at one time. This was the number that lined up for the fiveminute start. The first bunch-the limit men -contained only seven, and they got away in good shape after some little argument about allowing them to have starters. The second bunch was a little larger, but not too large to be able to line up in one row, and they went off without accident. Then came the larger bunches. There were too many starters to fill one row across the street and two rows had to be formed. The men who held up the first row or starters did not get out of the way in time and caused some of the riders in the second row to fall. They quickly recovered, and got away with the loss of only a few seconds, which was not enough to be really material in the result. Some of the other bunches had similar mishaps, in one instance four riders being in a bunch on the pavement. Finally the scratch men came to the tape and got off without accident.

TROUBLE IN STARTING. Although the seventeen men of the fiveminute class were compelled to form two lines at the start they got off without mishap. Every rider in the second row struck one of the starters of the men in the front row, but in no case was there a mix-up. The men recovered easily, and went off in good shape, soon being so mingled with the men of the first row that the difference in the start was not appreciable.

The four-minute men, ten in number, formed only one row and got off without

It remained for the three-minute class to have a bad mix. The rear riders struck the starters of the first row, and down went four of them in a bunch. Charles Teotter lost a toe clip in the melee and was compelled to abandon the race at Fall creek. The others recovered quickly, and did not suffer for the little delay in starting. The next two bunches got off without much trouble

It was the scratch men in whom the interest was centered, for it was generally believed that one of them would win the time prize. They had no trouble in starting, all of them being familiar with such things and able to cope with the difficulties.

As soon as the last man was gone the crowd began to move about, and during the wait all seemed to enjoy themselves. Just thirty-five minutes elapsed before the cry was raised that the finish was about to be made. A little speck of dust north of Fall creek could be seen, but no rider was in sight. The police and the assistant starters ran along the line and warned the people to clear the street. The crowd obeyed in a manner that was really remarkable, considering the large number of people who were anxious to get a view of the end of the race. Wilbur McIntosh came riding in at an easy gait, knowing there was no one behind him within a dangerous distance. From that time on the riders crossed the tape at intervals of only a few seconds until the last straggler came in. There were several who did not finish at all. Some had accidents on the way and others simply dropped out after they saw they had no chance to be among

Two rims were broken before Thirtieth street was reached and the owners dropped out. Holton had a collision | the 506 riders were soon on their way withshortly after crossing Fall creek and was compelled to drop out in a short time. The turn at Illinois street was made much better than the first one. A lesson had been learned.

The limit men continued in the lead until Broad Ripple was reached, but there they were overtaken, and passed by others. Engelken was the first man checked at the Ripple. Others followed in this order:

Kompe, 7 minutes; Holman, 7; Hill, 3; Potter, 6; Wolfred, 7; McIntosh, 5; Cash, 7; Purseil, 6; Shirley, 6; Andrews, 2; Hatton, scratch; Jungelaus, 5; Langdon, 5; Overturf, 4; Samuels, 5; Eagle, 5; Tacoma, 5.

Herbert W. McBride had a coilision at Broad Ripple and was thrown on his body where the rough gravel ground LeFever also had a fall on this was considerably brutsed. Both men were able to mount their wheels and ride home, but McBride was compelled to give

On the return Potter had a fall two squares north of Fall creek, which probably lost him first or second place. He recovered in time to finish eighth. Wilbur McIntosh held the lead and finished first with some distance to spare. Kompe came in second and was closely followed by a bunch of riders, every one pedaling his best for third place.

LOWE WINS TIME PRIZE. When the two-minute men went off many in the crowd thought they were the threeminute class, and when they saw O. R. Lowe following them in the rear it was thought by some that he had slipped under the starter's rope and got away before his time, and there was dispute about allowing the time prize, which his time given above allows him. Each bunch of riders was photographed as it lined up at the tape and when the plates were developed it was pathing suits of the variety that is sometimes | seen that Lowe was in his class at the tape and that he was therefore entitled to the

time prize, a Munger racer. W. T. House, who finished twentieth made the fastest time on an Outing, and is entitled to the Outing bicycle, which was offered for the best time on his wheel. There was a rule that no man could claim more than one prize, and as Mr. House will take any disposition on the part of those present | the bicycle, the man who finished twentyto be unruly or refuse to obey the request | first will get the prize of the twentleth man and each one following will come up one number on the prize list.

The first prize won, by McIntosh, is a \$100 swearing parrot, which was to be given to the last finisher, was won by Andrew Trieb. This was McIntosh's first road run. He has been a rider for some time and is an enthusiastic athlete, and has won several prizes in the field trials. He is eighteen years old, and is a pupil at the Manual Training School. He had been over the race course only once before the start.

Only six of those who had entered failed to come to the scratch for the start, which is somewhat surprising when it is considered that usually fully 20 per cent, of those who enter in handicap races drop out after the handicaps are announced. Many feel that they cannot do any good in the race with the time given them, and prefer not to start. There was some complaint about the was charged by some riders that the members of the Indianapolis Cycle Club got the best of the time, but to those who know how the estimates were made this does not seem reasonable. The best explanation of matter is that the handleapper knew what the members of this club could do, and therefore could give them time which would be nearer to what they deserved than if he had to depend entirely upon the entry blanks. It is always the case that a handicapper places a rider just where the blank shows that he should be, but in case of doubt the time is shortened as being

the only way fair to the other riders. The best time-38:35-would probably have been shortened nearly five minutes if there had not been such a strong head-wind for over four miles. The wind was strong enough to retard the riders fully a minute in each of the four miles. The officers of the race were:

CHICAGO ROAD RACE

GREATEST DECORATION DAY CY-CLING EVENT WON BY O. P. NELSON.

Dispute Over the Time Winner-Indiana Man Fourth-Results of Races in This State.

CHICAGO, May 30 .- The Chicago road race, the largest cycling event in the world in point of numbers of participants, was run at 11 o'clock to-day from Wheeling, twenty-four and a quarter miles northwest, to Garfield Park, this city. The weather was fine, and about 200,000 people were gathered to witness the finish. The riders came to the finish after traversing a mile circuit known as the Garfield Park loop, where the advantages for sightseeing were perfect. The race was won by O. P. Nelson, a member of the Monitor Cycling Club of Chicago, who had been riding only about a year. He had been given nine minutes in the handrcaps. The second to finish was

A special train was run from the Chi-The start was made at exactly 11 o'clock, the work of the start being so precise that out a fail or a hitch. The classes were thirty seconds apart, and the starts ranged from scratch up to fifteen minutes, with which allowance Joseph Badenoch, jr., a forty-seven-year-old candidate, brother to the chief of police of Chicago, was sent away first and alone. Badenoch finished in tweifth place. This was the tenth annual event which the associate cycling clubs of Chicago celebrate on Decoration day, it being the descendant of the Pullman road race, organized in 1887. The total number of entries was 643, and, considering the rather muddy and slow condition of the roads, the proportion of starters was very large. There had been great opposition to the selection of the course for this year, but the great success of this year's event was such that the course will probably renain the same next year.

Over fifty cycling clubs were represented in the race, and there were many riders from outside the city, Milwaukee, Minneapolis, Louisville and Canada sending their lyers in quest of the good prizes. There were fewer excitements than was the case last year, when the race was run over the Evanston out-and-back course, and the route this year being straightaway, the opportunities for unfair riding were eliminated. The order of finish for the first five

men was as follows: O. P. Nelson, Monitor C. C... 9:00 Chas. Lavin. Pizen C. C..... 9:00 J. W. Beil. Desplaines C. C.. 8:00 J. J. Duffy, Lincoln C. C.....11:00 J. Gavenscroft, South Side

Nelson, the winner, had never previously listinguished himself at riding, his only performance of any importance being a hundred-mile ride last year in 9:50:00. The matter of time winner is somewhat in doubt, but the honor at present rests on F. P. Murphy, of the North Shore wheelmen, who, it is claimed, finished in seventh place from a five-minute start. His time was 1:09:22. The seventh man to finish, however, wore no number, and on account of the doubt surrounding his performance he s likely to be thrown out. B. F. Faul-naber, of the Smalley Cycling Club, is redited with second time, 1:09:5714. Both Murphy and Faulhaber were unknown riders. Fred Nersel, of the Columbia wheeland P. B. Wilson, of the Chicago Cycling Club, were the starters of the scratca mark. Nersel met with an accident, but Wilson finished in eighty-ninth place for third tim in 1:10:23 1-5. Nersel down early and Wilson was comtherefore very meritorious. W. C. Run-yan, of Marion, Ind., took fourth time; Fred Lund, of Chicago, fifth, and A. A. Mc-Clain, of Aurora, sixth. The Irvington-Milburn Race. NEWARK, N. J., May 30 .- The Irvington-Milburn course annual twenty-five-mile road race attracted 30,000 people. Of 180 entries 153 started. Owing to the narrowness of the course at the start and the great number sent away in some of the patches there were several collisions, in one of which James Gregory, of the Newark wheelmen, was badly injured. The seeming winner was Charles Hadfield, of the Vim Bicycle Club of this city, six-minute handicap, in 1:10:03, but a protest was entered against him on the ground that he was paced the last ten miles. The protest was allowed and Hadfield was disqualified. The race was then given to R. M. Alexander, a Hartford wheelman, who finished second. W. P. Neville, of the Vim Bicycle Club of Newark, who finished third, was

given second place. Monete Cott, of Providence, won the time prize in 1:08:21. Races Ridden in the Mud.

Fast Time at Brighton.

DENVER, Col., May 30 .- Although it rained last night and the sky was overcast to-day the Brighton course was in fair condition, and the annual road race was a great success. Ninety-seven riders started. John Dean, six minutes handicap, finished first in :09:43. P. M. Ritchie, seven minutes handleap, was second, thirty seconds behind Dean; Ben Wright, five minutes handicap, third, twelve seconds later. J. B. Backenborger, scratch, won the time prize-finishing wentieth, in 1:06:50. Dean is a member of the Denver Wheel Club. This was his first race. His time was the best ever made on Memorial day, and but four minutes, fiftysix seconds slower than Hackenberger' ime over the same course on the Labor day races last year.

COLLEGE SPRINTER WEFERS WINS GLORY ON MANHATTAN FIELD.

Ran 220 Yards in :21 1-5, Beating the World, and Did 100 Yards in 9.4-5, His Former Amateur Record.

NEW YORK, May 30 .- The intercollegiate athletic games of this year on Manhattan field will be memorable for many years to come to athletes the world over. Yesterday there was a weeding out in the trial contests and to-day, with the track and infield in first-class condition, the breaking of intercollegiate and other records was looked for. The most sanguine of those interested never hoped to see such a recordsmashing performance as that made by B. J. Wefers, of Georgetown, in the 220vard dash. The wonderful sprinter not only broke the intercollegiate record, but succeeded in making a world's record of 21 1-5 seconds, which, for the distance, beats all professional and amateur performances two-fifths of a second. He won the 100yard dash easily in 94-5 seconds, easily equaling his own, which is the world's amateur record. The professional record is 9%

Four intercollegiate records were broken, namely, the 100 and 220-yard dash, the high jump and half-mile run. The mile walk was productive of a very exciting finish between Thrall, of Yale, and Fetterman, of Pennsylvania, which Thrall won hard pressed by two yards. Stewart, of Pennsylvania, protested the pole-vault and the question will be investigated next week, but it will not have any effect on the result of the championship, as Yale has more than enough points to spare in case of an ad-Score by Points-Yale, 431/2; U. of P., 221/2 Harvard, 14; Georgetown, 10; Columbia, 71/2

HARVEST FOR BOOKIES

TOOK AWAY MOST OF THE MONEY IN THE MEMORIAL-DAY CROWD.

Two Long Shots Helped Betray the Talent-A Suspicious Horse the Winner in One Race.

Yesterday was the bookles' harvest at the races. It was a day when there seemed to be an intense desire on the part of every loser to play even and with the usual resultthey were worse off in the evening than when they began the day. The harvest was all on the side of the bookmakers. It is extremely doubtful if the books came out behind on a single race, while on the fourth race, the Decoration day handicap, the bookmakers were not bothered at all in cashing in afterward, although the betting was very free. A 12-to-1 shot won this race, but there were scarcely a dozen checks in on Springtime. Mandolina was the favorite, with three others fighting hard for second place in the bettors' estimation, and all were played heavily. On this race the bettors fell down and the bookies reaped a harvest.

It was a fine day. The track was fast and the crowd was large, there being about 6,000

In the first race the bettors began by losing heavily on Camelia at 8 to 5. She was the favorite all the way through, but did not even get a place. There seemed to be no doubt that she would win, but even the heavy betting did not cause her to drop to even money. Caivary, the favorite, won in the second race at even money, but this did not bring up the winnings of the outsiders. for Kate Sayre and Fannie Brown were both played strongly. In fact, there was about as much money played on three or four horses as was placed on the favorite. This put the bookmakers away ahead in the play.

The big dump of the day came on the third race. There was a tip out that the players understood came from the stables that Epoya was booked to win. The horse's owners backed the animal for a considerable sum and this led those who had heard of the tip to place their money that way. They were very careful about it, for they did not want to scare the bookmakers into lowering the odds, which were then 4 to 1. They kept up this kind of play for some time, placing their money very quietly. The most of this betting was done by about twenty men, but they placed all they had on the same horse and when the race was run their favorite did not even find a place. This race was the riggest dump of the day.

had won during the week, and there was much doubt at first which would be the favorice. Finally the betting settled Mandolina, even, with Imp. Timothy, 3 to 1, Mrs. Morgan, 8 to 1, and Lord Willowbrook, 3 to 1. All were heavily backed, and Spring-time, the winner, at 12 to 1, received no at-tention whatever from the bettors. He was passed by as out of the race, and it seemed that nobody was looking for long shots at that time. The result was that not more than a dozen checks were cashed in. The fifth race was a surprise, even to the bookmakers, but they did not lose any money on it. Roundelay was the favorite, at even money. None of the horses was well known. Oily Gamin, the winner, was a suspected horse. Last Wednesday he was in a race and started at 20 to 1, His owners played him heavily and soon brought him down to 5 to 4. In that race he almost got left at the post, but finished in fairly good style. At that time he was suspected of being a ringer, but nothing was learned of him. Yesterday he started at 4 to 1, and his owners managed to get a good sum placed on him at that figure, but Roundalay, the favorite, had enough placed by the other bettors to offset this. Oily Gamin was an easy winner.

The fourth race was among horses that

The sixth race was a riddle to all. It was for maidens and was full of long shots. Frisco was the favorite, at 4 to 5. Volley Fuse stood 20 to 1, but the brisk betting soon cut that in two. The other long shots were about evenly played by those looking for just such snaps. Volley Fuse won. The

SATISFIED WITH THE MEETING. Poor Street-Car Service Kept Thou-

sands Away Yesterday. Secretary Smith Graves, of the Indianapolis Driving Club, expressed satisfaction at the experiment of giving a running meeting in this city. Said he last night:

"The meeting was successful and we are satisfied that Indianapolis wants the runners. I can't say that we came out even on the week, but the loss will probably be a very small one, hardly worth mentioning, in fact. You see the meeting cost us more than the next one will, because we were new at the running horse business and had to pay for our experience. Yesterday we had about 5,000 people at the grounds, when we would have had 15,000 if the street-car company had furnished enough cars. The total attendance for the week will run between 20,000 and 25,000. The horse men want us to give another running meeting in the fall. We have not considered the matter yet, for we must next turn our attention to the trotting races July 4 and the meeting in August.' It is safe to say, however, that another running meeting will be given in the spring. Most of the horses at the track the last week will split up for various meetings. About fifty of the racers will stable at the fair grounds for a week longer. The horsemen have high praises for the stabling facilities

Memorial Handicap at Oakley Won by Ida Pickwick in 2:08. CINCINNATI, May 30 .- The largest crowd of the meeting saw seven good races run at Oakley to-day. The feature of the card was the Memorial handicap. There were four starters in the race, Loki being an odds-on favorite. The finish was very exciting. Ben Holloday and Ida Pickwick fought to the wire, Ida Pickwick getting the decision by a nose. Three favorites, one second choice and three long shots got the money. The weather was fine and track

First Race—Five furlongs. Burlesque, 118 (Scherer), 6 to 1, won; George Rose, 108 (Perkins), 6 to 1, second; Bella Bramble, 106 (Vankuren), 20 to 1, third. Time, 1:01%. NEW YORK, May 30.-The attendance at Morris Park to-day was better than on any Decoration day in many years, fully 15,000 persons being present. It was a day of favorites, and nearly all won, although one or two had to be shaken up to do it. In the first race Domingo was the favorite, but was not placed. In the second race Shakspeare II was a prohibitive favorite, but nearly lost to Benamela. For the Eclipse stakes Don De Oro was an odds-on choice, and Griffin never let his wrap go from the time of the start. The Toboggan handicap brought six horses to the post, but only five started, as Carleton ran away and did not go back to the post. Hastings was backed as if it was all over, but Griffin had to shake him up a good bit to win, as he was very sluggish. Only two started in the Memorial handicap, Clifford and Keenan, at odds-on for Clifford, and the race was a farce. The best race was for selling platers at five furlongs, with Runaway as the favorite, and he was unplaced. Abuse seemed to have the race safe, but Hirsch was caught napping on Abuse and Lady Greenway won in a well-timed rush. At the meeting to-day it was announced that Henry of Navarre and Dr. Rice and Del-mar had been scratched for the Brooklyn handicap. Summaries:

Of Interest to Smokers. London Standard.

"I am informed that a large trade in the manufacture of English cigars is carried on cipally in the east end of London. the ends of cigars and cigarettes, 'dottels,' chewed 'quids,' etc., are bought at so much per pound from public houses, music halls, etc., besides those picked up in the street. These savory morsels are put into a large bath, where a kind of tobacco broth is made.

"In the early autumn, when the chestnut leaves are beginning to turn a golden color parties are organized who go to wherever they can get a good supply of these leaves, which are then put on long wires and im-mersed in this filth for either a long or short time, according to the requirements of a strong or mild cigar. These leaves are then rolled into English cigars." The above correspondent's statement tal-lies with an incident which occurred some years ago, when a certain person was charged with illegally manufacturing cigars.

His defense was that the cigars he manufac-tured did not contain a particle of tobacco And what is more, he proved his case. His cigars were made of brown paper, embosse to look like leaves, and steeped in tobac

LOST CHILD TRAILED

KOKOMO BLOODHOUNDS QUICKLY RECOVER A MISSING CHILD.

One Oil Gusher Yielding 300 Barrels a Day Struck in the Indiana Field Last Week.

Special to the Indianapolis Journal. KOKOMO, Ind., May 30 .- This morning the three-year-old son of Mr. and Mrs. Marion Scott, here on a visit from Chicago, wandered from the house and got lost. After a three hours' hunt by the officers bloodhounds were put on the scent of the child. Dr. Bell, owner of the dogs, promised to return the little fellow to the parents safe and sound within an hour. The sagacious dogs at once struck the trail, and within twenty minutes were standing beside the missing child, waiting for the attendants to arrive. The found the child beyond the city park, three miles distant. The hounds instantly made friends with the lost child, which enjoyed their caresses. This is a new feature of bloodhound work. The child was returned in safety to the distracted parents.

punity. Nature is continually working to throw off any impurities that may come into the body, but if there is a weak spot where the germs may find an entrance to the tissues, then the trouble begins. Disease germs propagate with lightning-like rapidity. Once in the blood, they quickly fill the whole body. The only way to get rid of them is to kill them. This is what Dr. Pierce's Golden Medical Discovery is for. It pu-rifies the blood. That means that it kills the germs, but that is only

part of what it does. It assists in the di restion of food and puts the digestive organs in a perfect condition. It stimulates the secretion of digestive fluids, so promot ing assimilation and nutrition. It fills the blood full of healthy red corpuscles. It purifies and enriches every drop of blood n the whole body and so supplies the tissues with the food they need. It builds up strong, healthy flesh and puts the whole body into a disease - resisting state.

Nine - tenths of all human ailments come from the same cause - impurity in the blood. Take almost any disease you please and trace the cause of it—you will find it in the blood. Purify and enrich the blood and you remove the cause, and so you cure the disease inevitably and infallibly. Dr. Pierce's Golden Medical Discovery cures all diseases depending upon poor, impoverished, thin, impure blood.
